------------------------	----

Anolon is the most acknowledged brand in the international market with its high quality products, along with its use of latest technology, and the beautiful design that answer the need for multifunction cookware of professionals, particularly the chefs of hotels and leading restaurants around the world.

3 - 5

ANOLON ADVANCED COOKWARE

Comfortable SureGrip™ silicone handles and tempered glass lids add sophistication and class to this cookware that will complement every kitchen. Restaurant tested DuPont Autograph 2 interior and exterior nonstick surface is ideal for healthy cooking and easy cleanup. The heavy gauge, hard-anodized aluminum ensures even heat distribution.

- DuPont's Autograph® 2 Nonstick Surface – Inside AND Outside. Exclusive multiple reinforced nonstick technology designed to outlast traditional nonstick coatings. Enduring nonstick performance. Superior durability. Easy to clean.
- Heavy Gauge, Hard-Anodized Aluminium Construction. Fast and even heat distribution for perfect cooking performance. Twice as strong as steel – it provides incredible durability.
- Anolon® SureGrip™ Handles. A combination of stainless steel and silicone rubber. Innovative, durable, and ergonomic design provides a soft, cool to the touch, confident grip. Riveted to the pan for maximum durability. Handles feature a convenient loop for hanging. Oven safe to 200°C.
- Dome Shaped, Tempered Glass, Break Resistant Lids with Anolon® SureGrip™ Handles. Allow constant monitoring of food without having to lift the lid, locking in flavours and nutrients.
- Lifetime Guarantee.

ANOLON NOUVELLE COPPER

Anolon Nouvelle Copper is made from hard anodized aluminium which is twice as hard as stainless steel and offers exceptional heat distribution. Restaurant tested Dupont Autograph® 2 non-stick on the interior delivers superior performance and outstanding durability.

A double full cap base features a layer of aluminium that is encapsulated with copper followed by a further layer of aluminium and finished with an impact bonded magnetised stainless steel cap. This unique combination of materials offers outstanding heat distribution and cooking performance and is suitable for all hob types including induction.

Elegant stainless steel dome lids fit securely into the rims to 'lock in' flavours and nutrients. Wider lidfittings have been designed for added convenience.

- Made from durable Hard Anodized Aluminium with a brushed interior.
- The heavy gauge, fully encapsulated base eliminates hotspots to give outstanding heat distribution.
- Close fitting steel lids retain nutrients and flavour.
- Suitable for all cooker types including induction.
- Oven safe up to 240°C/500°F/Gas Mark 9 with lid.
- Lifetime guarantee.

Circulon, With 25 years of cookware innovations, Circulon is a world-renowned brand of gourmet nonstick cookware engineered to make home cooking fast, easy, healthy and delicious. In 1985, Circulon revolutionized the industry by introducing the first hard anodized nonstick cookware. This unique approach combined the excellent heat distribution properties of hard anodized aluminum with the exceptional durability of a resilient nonstick. Plus, Circulon went one step farther by introducing the TOTAL? Food Release System, which includes Hi-Low Technology, a unique groove pattern on the cooking surface and the most advanced nonstick coating from DuPont?. Circulon's technology is so unique that it garnered a patent from the U.S. government. Other firsts include making hard anodized nonstick cookware both dishwasher-safe and induction-suitable. This tradition on innovation continues to inspire the introduction of new Circulon cookware.

6 - 15

Circulon grew to become the best-selling brand of cookware in the world. Over the years, the brand has pioneered a series of innovative cooking solutions, including:

- The first hard-anodized nonstick cookware
- The first hard anodized cookware with a color exterior
- The first hard-anodized cookware that is completely dishwasher-safe
- The first hard-anodized cookware that is suitable for all stovetops (including induction)
- A durable nonstick system on stainless steel
- Hard-anodized electric cookware
- The "Toss & Turn" chef's pan
- Splatter-free cooking shields
- Easy-straining colander lids

CIRCULON CLASSIC

Circulon Classic's hard-anodized aluminum construction means great heat conduction, and the glass lids allow for monitoring food while it cooks without releasing nutrients or moisture. It features the TOTAL® Food Release System of unique "Hi-Low" waves to reduce surface abrasion, and is coupled with DuPont Autograph® advanced 3-layer nonstick to deliver extraordinary food release and easy clean-up – and it's metal utensil safe. The phenolic handles are comfortable and oven safe to 350°F.

CIRCULON ELITE

This Circulon Elite features a streamlined profile that marries form with function. Crafted of dark, charcoal gray hard-anodized aluminum, it heats up quickly and spreads heat evenly, preventing hot spots that burn your food. With metal-utensil safe nonstick both inside and out, cleanup is a breeze. The TOTAL® Food Release System of unique "Hi-Low" waves reduces surface abrasion, and is coupled with DuPont's™ advanced 3-layer nonstick to deliver extraordinary food release and exceptional durability. The shatter-resistant tempered glass lid, bound by a gleaming rim of reinforcing stainless steel, allows you to watch food cook while flavors and nutrients are kept inside the covered pan. Its comfortable cast stainless steel handle features an ergonomic silicone grip that is oven safe to 400 degrees.

Circulon Elite cookware redefines comfort and convenience with superior performance that will last for years. Lifetime satisfaction - guaranteed!

- Featuring the patented TOTAL Hard-Anodized Hi-Low Food Release System, outlasting all other nonsticks - guaranteed!
- Riveted stainless steel and silicone Comfort Grip handles for an easy, slip-free grasp - oven safe to 400°F.
- Advanced nonstick exterior for easy cleaning.
- Professional, heavy gauge hard-anodized construction heats up quickly and spreads heat evenly which reduces "hot spots" that can burn foods. Flared edges provide drip-free pouring.
- See-through tempered glass lids with stainless steel rims allow you to watch foods cook without losing flavor and nutrients.

MEYER COOK'N LOOK INDUCTION

- Thick gauge aluminium - Even heat distribution across the entire cooking surface, right up to the sides, eliminating burned food cooking problems due to "hot spots".
- Stainless steel 3-layer clad base - Induction ready non-scratch sunray base remains flat for excellent stove contact.
- Du Pont Teflon Platinum interior - Top of the range non-stick coating offers outstanding food release capabilities and easy-clean convenience.
 - Meyer Black exterior - Easy to maintain as cooking spills wash off easily.
 - Heat-tempered, break-resistant glass lids - Self-basting lids retain heat and hold in natural flavours and nutrients and textures. Eliminates lid-lifting for convenient monitoring and helps to minimize boil-overs or overcooking.
 - Heat-resistant phenolic handles - Securely riveted handles and knobs have been designed for "stay-cool" comfort during stove top cooking.
- Stove top to oven use - Oven safe to 180°C/350°F. Start a recipe on top of the stove and finish cooking it in the oven without having to change pans. Use induction
- 1-year guarantee - Quality assurance covers all manufacturing defects.

MEYER SELECT ADVANTAGE

Quality, style and safety - that's Select Advantage Non-Stick! The hard wearing, porcelain enamel exterior finish is now available in two attractive colours, black and almond, both have colour co-ordinated handle inserts - bringing both style and safety to your kitchen. The new combination handles feature stainless steel for durability, phenolic for its cool to touch qualities and a non-slip thumb grip to improve safety and comfort. The unique glass straining lids have deep walls with straining holes on opposite sides; by simply lining these up with the pouring lips, the tricky task of straining hot food can be achieved quickly and easily in one safe operation. The triple layer non-stick interior provides outstanding food release for easy clean convenience and healthy cooking.

- Unique glass and stainless steel lid for safe, easy straining.
- Twin pouring lips for left or right handed use.
- Riveted stainless steel handles with 'soft touch' inserts, designed for style, comfort and safety.
- Teflon® Select, triple layer non-stick interior for low fat healthy cooking and easy clean convenience.
- Porcelain enamel exterior, durable and easy to clean.
- Oven safe up to 180°C/350°F/Gas Mark 4 & Dishwasher safe.
- Quality Assurance - we offer an unconditional warranty against manufacturing defect.

MEYER BELLA CLASSICO

- 18/10 stainless steel - Finest stainless steel available. Never rusts for sparkling durability.
- Extra heavy Perma-Bond base - The base covers the entire pan's bottom for even heating and efficient heat distribution.
- Extra heavy lids - Minimize the use of water by trapping the steam and creating a "self-basting" oven that locks in taste and nutrients. Flip over for easy nest and stack storage.
- Ergonomically-designed handles - Beautifully sculptured handles and knobs stay cool during stovetop cooking.
- Stovetop to oven use - Handles are oven safe up to 350°F/180°C.
- Brilliant polished finish - Highly polished for lasting beauty.
- 25-year warranty - Years of cooking enjoyment.

MEYER CONTENNIAL

- Stainless steel - Durable, hygienic cooking surface with fine sunray finish exterior for low maintenance.
- Stainless steel encapsulated base with 2 mm aluminium core - Induction ready. The extra thick, stainless steel encapsulated base remains flat and ensures maximum stove contact for good cooking results.
- Break-resistant tempered glass lid - Eliminates lid-lifting for convenient monitoring and helps to minimize boil-overs or overcooking. Using a lid when cooking holds in heat, saves energy and speeds up cooking.
- Rolled rim - Drip-free pouring.
- Ergonomically-designed handles - Beautifully sculptured handles and knobs are securely riveted and stay cool during stove top cooking.
- Stove top to oven use
- Oven safe to 180°C/350°F. - Start a recipe on top of the stove and finish cooking it in the oven without having to change pans.
- 10-year guarantee - Quality assurance covers all manufacturing defects.

while some consumers choose Silverstone because of its focus on the fun and colorful cookware.

38 - 39

SILVER STONE SET

Combining fashionable design and durability, SilverStone cookware is ready to cook up something exciting! Featuring fresh new colors and a quality nonstick surface, it is available in a variety of affordable cookware lines. This cookware set is an exceptional value, including all of the pans needed to equip your kitchen with the most used cooking pieces. As the set contains only basic pieces, you'll really use each and every pan. It includes saucepans for whisking a homemade sauce or cooking your morning oatmeal, a big stockpot for soups, stews or boiling pasta, and fry pans (probably the most used pan in any kitchen) that will help you turn out perfect pancakes or a simple grilled cheese sandwich. Excellent performance, vibrant color and a nonstick that lasts from the brand you know and trust. Cook up some excitement in your kitchen!

- Metallic finished nonstick cookware offers stunning good looks with exceptional cooking performance
- Durable scratch resistant nonstick surface for easy cleaning and fat-free cooking
 - Anti-warp prism base is durable, strong and provides even heating
- Heat-resistant silicone rubber safety grip handles are slip-free and comfortable to touch
 - Riveted for safety and oven-safe to 350°F
 - Quality Assurance Guarantee
