CIRCULON

This unique approach combined the excellent heat distribution properties of hard anodized aluminum with the exceptional durability of a resilient nonstick. Plus, Circulon went one step further by introducing the TOTAL® Food Release System, which includes Hi-Low Technology, a unique groove pattern on the cooking surface and the most advanced nonstick coating from DuPont.

CIRCULON
Cooking Solution by Design®

Circulon Symmetry cookware combines high-technology performance with an elegant flared shape to provide great durability, exceptional heat conduction and a beautiful look, ensuring exquisite dishes can be created within the home kitchen environment. Combining innovative features such as tempered glass lids, soft slip free handles, the use of robust materials during the cookwares construction, and of course our superior non-stick technology inside and out.

CIRCULON ELITE

The TOTAL® Food Release System of unique “Hi-Low” waves reduces surface abrasion, and is coupled with DuPont’s™ advanced 3-layer nonstick to deliver extraordinary food release and exceptional durability. The shatter-resistant tempered glass lid, bound by a gleaming rim of reinforcing stainless steel, allows you to watch food cook while flavors and nutrients are kept inside the covered pan. Its comfortable cast stainless steel handle features an ergonomic silicone grip that is oven safe to 200°C.

CIRCULON 2

Nonstick interior - Total® food release system exclusive to Circulon. Combination of the unique “Hi-Low” patented wave technology and state of the art nonstick formula. Lab tested to outlast all other nonsticks. Lids - Mirror polished stainless steel lids for maximum durability and shine. Oven-safe up to 180°C. Designed to provide a tight seal. Handles- Phenolic - stay cool during stovetop use. Ergonomic handles are comfortable, slip-free and effortless to use. Riveted to the pan to ensure longevity and durability.
